

Comments and Feedbacks .

- **Comments received from some who attended the first June 29-30th, 2010 course:**

"I thoroughly enjoyed the course and appreciate the opportunity to be able to take a glimpse into the knowledge that Dr. Goyal has. It was interesting to be able to interact and ask questions directly to the expert to get the answers and to hear concerns/complaints of actual people and customers on site. I would recommend this course." - JR

"Very good coverage of topics. Nice insights as to "Best Practices" vs. Industry Standards". The course was very detailed yet not over my head." - JF

*"The photos were extremely useful. Slides are excellent. Instructor is very knowledgeable. **The course is a must for every beginner in coking.**" – FO*

*"The course was **geared for coker operators.**" - DK*

"Learned a lot about the problems and solutions on cokers." - TB

"Excellent course for learning coking fundamentals. Would be great for people new to the industry." - KR

*"**Best overall presentation of all courses I have been to.** All topics of interest covered well." - JT*

*"Very thorough. Provided **both theory and practical** information. I liked questions answered well in class." - JM*

"Very good overall amount of content. Not over my head. Good schedule - allowed enough time for discussions." - LE

"Good material and exciting class." - KE

*"Really Detailed & interesting course. **I really liked the real life experiences and stories.**" - JM*

"Good overall overview of coking. Good for people with limited knowledge of coker operations." – JG
